The cost of these services has increased to a point where the Town Board finds that the cost of such services should be borne by those who use the services.

(B) Charges for Emergency Ambulance Services. Any person who utilizes emergency services shall pay for emergency rescue services, including equipment and transporting from the scene of the required service to a hospital, according to the schedule of fees hereinafter set forth in subsection (D) below. Active paid-on-call members of the Department or retired members with vested rights and members of their immediate families living at home shall be exempt from the payments of such fees.

(C) Applicability of Fees. I-99 advanced life support intercepts means, when it is necessary for a patient that is being transported by a non-I-99 ambulance service, to require the services of a I-99 advanced life support ambulance service. This includes, when necessary, for two ambulance services to be involved in the transport of a patient, when either the patient is transferred from the non-I-99 ambulance to the I-99 ambulance or where the I-99 staff and/or equipment board the non-I-99 ambulance.
(1) **Provision of service.** The Town provides emergency ambulance service to persons needing emergency medical attention after the sudden onset of a medical condition or trauma manifesting itself by acute symptoms of such severity, including severe pain, that the absence of immediate attention could reasonably be expected to result in placing the patient’s health in serious jeopardy, or the serious impairment of bodily functions, or serious dysfunction of any bodily organ or part.

(2) **Outlying areas with a mutual aid agreement.** In all cases where the emergency service of the Town is summoned in response to an emergency call in areas outside the Town where a mutual aid agreement does exist, every person receiving such emergency service, the administration of medical drugs and disposable medical equipment used in attending at the scene of the incident and transporting such person to an emergency hospital shall be charged for such service in accordance with the pertinent mutual aid agreement.

(3) **Outlying areas without a mutual aid agreement.** In all cases where the emergency service of the Town is summoned in response to an emergency call in areas outside the Town where no mutual aid agreement exists, every person receiving such emergency service, the administration of medical drugs and disposable medical equipment used in attending at the scene of the incident and transporting such person to a private or emergency hospital shall be charged for such service.

(4) **I-99 advanced life support intercepts.** In all cases where I-99 advanced life support intercept service is requested from the Town by a municipal ambulance service or rescue squad that does not provide a I-99 level of care, that municipality or rescue squad shall be billed for the I-99 service provided.

(D) **Schedule of Fees for Service, Transfer Service and Disposable Medical Equipment.** The Town Board shall establish a Schedule of Fees which may be revised from time to time by the Town Board.

### 5.145 FIRE DEPARTMENT FEES ESTABLISHED.

(A) **Intent.** Section 60.55, Wis. Stats., authorizes the Town Board to provide for fire protection for the Town and delineates the manner in which such services may be funded. The cost of fire services has increased to a point where the Town Board now finds that the cost of such services should at least be partially borne by those who utilize such services.

(B) **Charges for Emergency Fire Services.** When emergency fire services are mandated and/or utilized in connection with a motor vehicle accident or incident, payment shall be made for fire services, including equipment and manpower required to discharge such service, according to the schedule of fees hereinafter set forth in subsection (D). Fees may be charged to the owner of the vehicle,
to the operator(s), or jointly or severally as the circumstances may dictate.

(C) **Intentional Conduct.** Various ordinances of the Town of Somers including, but not limited to, Section 5.06, Section 5.11, Section 5.12 and Section 5.13 of the Code of Ordinances, requires the calculation and/or imposition of costs associated with fire services. In accordance with the provisions of such ordinances, in those cases where specific wrongdoing has caused the Town to expend funds unnecessarily for fire services, it is the intention of the Town Board to recoup such funds from the wrongdoer as may be authorized by Town ordinance or state statute.

(D) **Schedule of fees.**

(1) **Equipment.** The Town Board shall, from time to time, establish a schedule of fees for the use of Department equipment.

(2) **Miscellaneous costs.** The foregoing fee schedule does not include the costs of manpower utilized to man the incident, which costs shall be at the then-prevailing rates paid by the Town to the Department personnel either directly or indirectly involved in the incident.

(3) **Incurrence of Extraordinary Costs.** From time to time because of the unusual nature of a particular incident, specialized equipment or independent contractors are required to be utilized by the Department. In such instances, and regardless of whether there is intentional wrong doing associated with the incident which causes the incurrence of the extraordinary expenses, the property owner and/or such other person or persons as can be readily identified shall be responsible for reimbursement to the Town for all expenses incurred by the Department in utilizing such extraordinary services or equipment and such expenses may be imposed upon the real property in the form of a special assessment.

5.15 **Penalty.**

Except as provided in certain subsections of this ordinance, any person who shall violate any provision of this chapter shall be subject to a penalty as provided in §25.04 of this municipal code.
